

NIBBLES FROM THE BUNNIES

FEBRUARY 2018

CLASSROOM HIGHLIGHTS

The month of January was a busy one in the Bunny Room. We explored the themes of Birds, Penguins, Jan Brett and Winter. Some fine motor activities that were enjoyed by all included creating owls by pulling apart cotton balls and wrapping a pinecone, decorating foam snowflakes with glue and glitter and rolling model magic to make a snowman. We also enjoyed learning new songs such as "Did you ever see a robin..." and "Snowman Tall." Our upcoming theme for February will be Colors and we will start with "Red Week."

TIDBITS

BRAIN BUILDING for STEM

Science is a way of thinking. Science is observing and experimenting, making predictions, sharing discoveries, asking questions and wondering how things work.

Technology is a way of doing. Technology is using tools, being inventive, identifying problems and making things work.

Engineering is a way of doing. Engineering is solving problems, using a variety of materials, designing and creating, and building things that work.

Math is a way of measuring. Math is sequencing, patterning, and exploring shapes, volume and size.

UPCOMING

TCW will close at the end of school on February 16th and reopen February 26th for our February Winter Break. Have a wonderful, enjoyable week.

WELCOME

We welcome Ethan M. and his family to the Bunny Room. He will be joining us after our February Winter Break.
