Week of October 12th

We have been so lucky with all the beautiful Autumn weather and love our time spent outdoors. When we did encounter a rainy day your children were able to adjust to the change in the morning plan. The teachers call those days “Switcheroo Days.” With the colder weather approaching we may have more of these “Switcheroo Days.” As long as it is not raining or too cold, 11:30 pickup will be on the playground and 1:00 pickup will be under the large tent.

This week the children enjoyed playing with construction trucks, small containers and spoons in sand on trays. Each child has their own container of sand and they had fun using the trucks to push the sand and fill the dump trucks on their tray. There was also a lot of scooping and pouring the sand. On Thursday and Friday we added water to the sand and they were able to explore the activity in a whole new way making sand castles and pies.

During our mask break time we have loved dancing to the action songs “Let's Go Swimming” and “We Are the Dinosaurs” by the Laurie Berkner Band. If you would like to listen at home both songs can be found on Youtube.

We were also busy completing the first page of our journals. This page is “All About Me” and the children were happy to answer the questions about themselves.

Added Notes

The Children's Way will be closed on Tuesday, November 3, Election Day.
