

Koala News

Week of September 28

We have been in school 3 weeks and continue to settle into the Koala Daily Plan. Your children have been enjoying all the activities inside and outside. We have been fortunate with the beautiful weather, only one rainy day and we still managed to make it to the playground. On the day that it did rain we ate our snack inside. We placed their beach towels on the floor around the room and we had a picnic snack. After we did our helper jobs, throwing away our trash and putting our snack containers in our backpack, we stayed on our beach towels and participated in Circle Time. The children were very flexible in the change of plans for that particular morning.

This week we enjoyed our first Community Painting. We covered a table with paper and all the children had a turn to paint with their own brushes. We will be making a Koala Bear face from this to decorate the wall inside our classroom.

Added Notes

The beach towels that were in backpacks are now staying in each child's cubby. We will be using them inside the classroom to designate their space for snack and Circle Time. We will send them home when they get soiled.
