

September, 2018

Dear Panda Families,

Welcome to the Panda Class! The children have easily acclimated to our daily activities (our “Panda Plan”) and have enjoyed discovering the variety of activities in the classroom and on the playground. We spent our first weeks exploring the world of Pandas. Some of our favorite activities included playing with pandas and buckets in the sand table, squishing “Panda Dough”, feeding the babies and pandas in our kitchen area, as well as looking at books with friends and teachers, and coloring pictures of pandas. On Monday we will begin our unit on colors.

We thank you for sending in an extra change of clothes for your children. A change of clothes kept in our bathroom enables easy changing of clothes that might get wet or dirty during the day.

As a quick reminder, please send in a 4”x6” picture of your child for their cubby as well as a 4”x6” family picture. All of the children are having such fun looking through our “Panda Family” album and are so excited to find their family in the album as well as share their picture with their friends.

We do have a student with a tree nut allergy. If your child has tree nuts (such as almonds or cashews) in their lunch, please do not put their lunch box in the bin with the NO NUT sign.

Also, there will be information from time to time from the office, PTO, and classroom. You can find these items in your parent boxes above the children’s cubbies across from our room.

Thank you, Christina Rodrigo, for making beautiful green play dough for this month. The kids really enjoyed playing with it today.

We are eager to be a part of your children’s preschool experience!

*Jenny, Sue, Olivia, and Brianna*
